

Householder Application for Planning Permission for Works or Extension to a Dwelling and Listed Building Consent for Alterations, Extension or Demolition of a Listed Building

Town and Country Planning Act 1990

Planning (Listed Buildings and Conservation Areas Act) 1990

1. Applicant Name and Address

Please enter the Applicant Details, including full name and title. Please also enter the house/flat number and/or name (if applicable) and street name in the Street address field. The town, county, country and full postcode should also be entered.

If the application is being submitted by an agent (i.e. someone who is acting on the applicant's behalf) all correspondence, including the decision letter, will be sent to him/her.

2. Agent Name and Address

Please enter the Agent Details, including full name and title. Please also enter the house/flat number and/or name (if applicable) and street name in the Street address field. The town, county, country and full postcode should also be entered.

If the application is being submitted by an agent (i.e. someone who is acting on the applicant's behalf) all correspondence, including the decision letter, will be sent to him/her.

3. Description of Proposed Works

Please describe the proposal accurately and concisely. State the number of storeys proposed and the position of any extensions.

Example: 'erection of a single storey rear extension, two-storey side extension and dormer window to rear'

4. Site Address Details

Please enter the full postal address of the site. Enter the house/flat number and / or name (if appropriate) and street name in the Street address field. The town, county and full postcode should also be entered. If the application relates to open ground describe its location as clearly as possible (e.g. *'Land to rear of 12 to 18 High Street'* or provide a grid reference).

When you submit a location plan, it is recommended that this is at a scale of 1:1250 or 1:2500, showing at least two named roads and surrounding buildings. The properties shown should be numbered or named to ensure that the exact location of the application site is clear.

The application site must be edged clearly with a red line on the location plan. It should include all land necessary to carry out the proposed development (e.g. land required for access to the site from a public highway, visibility splays (access around a road junction or access, which should be free from obstruction), landscaping, car parking and open areas around buildings).

A blue line must be drawn on the plan around any other land owned by the applicant, close to or adjoining the application site.

All plans must be to a metric scale and any figured dimensions given in metres and a scale bar should be included. Each plan should show the direction of North.

5. Pre-application Advice

The local authority may be able to offer (possibly for a fee) pre-application discussions before a formal application is submitted in order to guide applicants through the process. This can minimise delays later in processing the application.

Pre-application discussions can also help you and the planning authority identify areas of concern about your proposed development so that you can give consideration to amending your proposal before the application is submitted. The advice and guidance given to you at the pre-application stage is given in good faith. However, it does not guarantee or supply a definitive undertaking as to whether your proposal is likely to be acceptable.

If you have received pre-application advice from the planning service please indicate the reference/date of any correspondence or discussion and the name of the officer. If you do not know these details then please state *'Unknown'*.

This will assist the Council in dealing with your application as quickly as possible.

6. Pedestrian and Vehicle Access, Roads and Rights of Way

You must indicate on your form whether you propose any new or altered vehicular or pedestrian access to or from the public highway, and show the location of these on your plans. Any public footpath that crosses or adjoins the site or is affected must be shown clearly on the plans, including any proposals that may require a closure or diversion. Legal procedures for diversion or closures must be completed prior to works commencing on site.

If you are proposing to undertake any works that will affect the pavement or roadway then it is advisable to seek advice from the local highways authority.

7. Biodiversity and Geological Conservation

Where a development proposal is likely to significantly affect features of biodiversity or geological conservation interest, it will be necessary to submit with the application sufficient information on what those effects are, in order for the local authority to determine it. The local planning authority may have produced a list of which features in their area will require such additional information. In some cases this additional information may be required based on a survey of affected species, habitats or geological features and an assessment of impacts. What is required will depend on the significance of the features and the scale and significance of the likely impacts, and what information the local authority already has. It will be advisable to discuss with the local planning authority what is required, and who may be competent to carry out any survey and assessment work required, prior to compiling the information and submitting the application.

It may be possible to obtain some of the necessary information via a search of ecological or geological data held by a local environmental records centre.

...continued on next page...

It is possible that survey information can be collected only at certain times of the year and the applicant will need to take this into account in preparing an application and considering the timing for the development. Depending on the survey information which the local planning authority requires, the following factors may need to be considered:

- the numbers and range of habitats, species of flora and fauna and/or geological features found on and where appropriate, around the site;
- the potential development impacts likely to harm the biodiversity or geological conservation features identified by the survey (both direct and indirect effects both during construction and afterwards). Including how:
 - alternatives designs or locations have been considered
 - adverse effects will be avoided wherever possible
 - unavoidable impacts will be mitigated or reduced
 - impacts that cannot be avoided or mitigated will be compensated

Further information on the legislative and national planning policy context for biodiversity and geological conservation can be found in the following documents:

- [Planning Policy Wales](#) Chapter 5 “Conserving and Improving Natural Heritage and the Coast”
- [Technical Advice Note 5: “Nature Conservation and Planning”](#)
- [Minerals Planning Policy Wales](#)

8. Materials

Please describe the materials you wish to use for walls, roofs, etc, including the type, colour and name of all materials to be used.

Additional information may also be provided in a supporting statement or shown on drawings/plans.

9. Listed Building Grading

When buildings are listed they are placed on statutory lists of buildings of 'special architectural or historic interest' compiled by the Welsh Assembly Government under the *Planning (Listed Buildings and Conservation Areas) Act 1990*, on advice from Cadw, the historic environment service of the Welsh Assembly Government.

Listed buildings are graded to show their relative importance:

- Grade I buildings are those of exceptional interest
- Grade II* are particularly important buildings of more than special interest
- Grade II are of special interest, warranting every effort to preserve them

Please confirm the grade of the listed building which is the subject of this application. If you are unsure as to the grade of the building please contact the planning authority.

10. Immunity from Listing

When permission is being sought or has been granted, any person may apply to the Welsh Assembly Government for a 'Certificate of Immunity'.

- If a certificate is granted, the building cannot be listed (and the local authority cannot issue a building preservation notice) for a period of five years.
- If the certificate is not granted, the building will normally be added to the statutory list.

An application for a certificate may be made only where an application (whether pending or granted) has been made for planning permission for development, which involves the alteration, extension or demolition of the building, although the applicant for that permission and the applicant for immunity from listing need not be the same person.

Applications for a certificate of immunity should normally be accompanied by a plan showing the position of the building or buildings involved and photographs of each elevation of the building; any notable interior features should be supplied together with details of the approximate date of its construction, the architect (if known) and any available information about the architectural or historic interest of the building.

11. Demolition

If you have answered 'Yes' to the total or partial demolition of a listed building then you will need to indicate whether it is total or partial demolition of the listed building or buildings within the curtilage of the listed building.

If it is partial demolition you will need to provide details of the volume of the listed building and part to be demolished. You should calculate the cubic content figure on the basis of the external dimensions of the property.

Where an application includes demolition your attention is drawn to the guidance set out in [Planning Policy Wales](#) Chapter 6 "Conserving the Historic Environment".

The scope and degree of detail necessary in the written justification will vary according to the particular circumstances of each application. It is strongly recommended that the applicant/agent and officers discuss the scope and degree of detail to be included in this justification before submission of the application.

12. Listed Buildings Alterations

A written explanation of the proposed works should include:

- an assessment of the impact of the works on the significance of the asset
- a statement of justification explaining why the works are desirable or necessary (this should include development appraisal where appropriate)
- an archaeological assessment or field evaluation and a mitigation strategy where important archaeological remains may exist, and
- (when works include significant elements of demolition or rebuilding,) a structural report by an engineer familiar with heritage assets, which identifies defects and proposes remedies

13. Trees and Hedges

Please mark on a scaled plan the position of all trees and hedges on your own property and those on adjoining land which are within falling distance of the boundary (i.e. the distance from the boundary to the trees and hedges is less than (or equal to) their height).

This information will help us consider how your proposal might affect these trees and hedges. If you know what species the trees are, please name them. Number the ones that you will need to remove or prune in order to carry out your proposal.

Please note: this is an application for planning permission. It is not an application or notification to remove or prune protected trees (i.e. trees which are included in a tree preservation order or located in a conservation area).

If you are granted full planning permission, you will not need to obtain separate consent for tree works which are required to implement the planning permission. However, works to protected trees which are not required to implement the planning permission must be the subject of a separate application or notification using the tree works form.

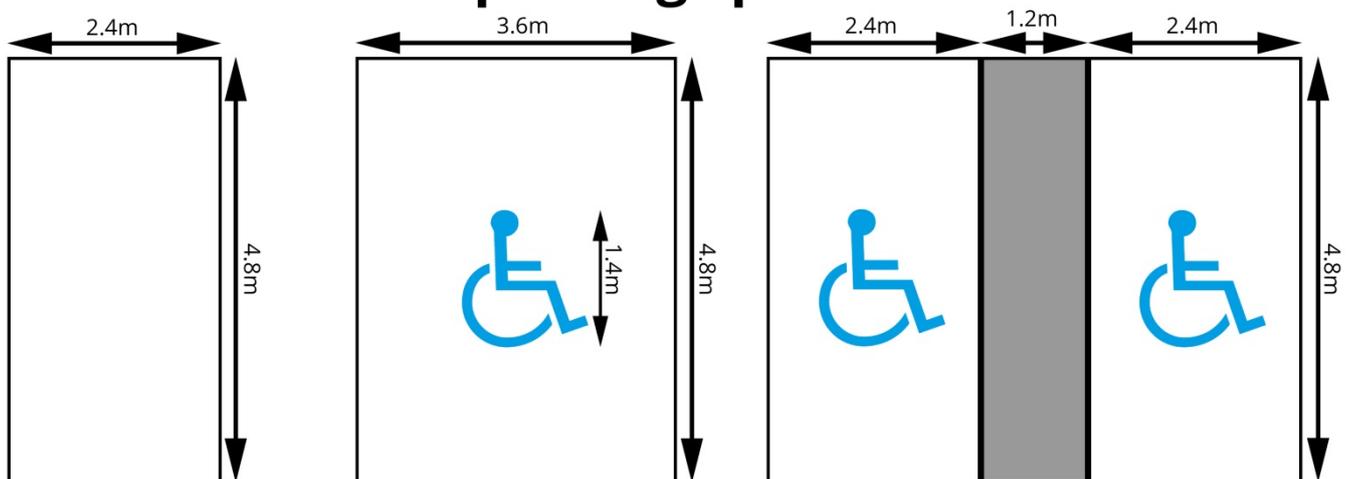

14. Parking

Please specify the total number of existing parking spaces and the total number of proposed parking spaces (including spaces retained) by vehicle type. Please include garage spaces.

If no parking spaces are to be provided you should show on your plans or describe in a supporting statement where vehicles are to be parked.

The diagram below shows the minimum size of car parking spaces. However, further advice and guidance should be sought from your planning authority.

Minimum size of parking spaces

Minimum size

Minimum sizes for disabled parking spaces

15. Authority Employee / Member

You must declare whether the applicant or agent is a member of the council's staff, an elected member of the Council or related to a member of staff or elected member of the Council.

16. Ownership Certificates

An ownership certificate must be completed stating the current ownership of the land to which the application relates under the *Town and Country Planning (Development Management Procedure) (Wales) Order 2012*. It is an offence, knowingly or recklessly, to complete a false or misleading certificate.

• Certificate A - Sole Ownership

Certificate A should only be completed if the applicant is the sole owner of the land to which the application relates (i.e. the applicant is the freeholder and there are no leaseholders with seven years or more remaining on their leases).

If the application involves a leasehold flat then certificate A does not apply as the applicant is not the sole owner. Therefore, in this circumstance, the applicant should complete certificate B,C or D (see details below).

• Certificate B - Shared Ownership (All other owners known)

Certificate B should be completed if the applicant is not the sole owner but knows the names and addresses of all the other owners (e.g. this certificate will need to be served if the proposals encroach onto adjoining land).

The Notice to Owners ([Notice 1](#)) must also be completed and sent to all known owners.

A copy of the notice must also be sent with the application to the local authority.

...continued on next page...

• **Certificate C - Shared Ownership (Some other owners known)**

Certificate C should be completed if the applicant does not own all of the land to which the application relates and does not know the name and address of all of the owners.

The Notice to Owners ([Notice 1](#)) must be completed and sent to all known owners.

Where the owner is unknown the Notice to Unknown Owners ([Notice 2](#)) needs to be published in a local newspaper.

A copy of the notice must also be sent with the application to the local authority.

• **Certificate D - Shared Ownership (All other owners unknown)**

Certificate D should be completed if the applicant does not own all of the land to which the application relates and does not know the names and addresses of any of the owners.

The Notice to Unknown Owners ([Notice 2](#)) needs to be published in a local newspaper.

A copy of the notice must also be sent with the application to the local authority.

17. Agricultural Holdings

All householder applications must include the appropriate agricultural holdings certificate to be considered by the local authority.

It is an offence, knowingly or recklessly, to complete a false or misleading certificate.

If the land to which the application relates forms an agricultural holding or part of an agricultural holding as defined by the *Agricultural Holdings Act 1986* and comprises land subject to an Agricultural Tenancy all agricultural tenants must be notified prior to the submission of an application.

You must either:

- confirm that none of the land to which the application relates is, or is part of, an agricultural holding, or
- give notice to all tenants on the agricultural holding using the Notice to Agricultural Tenants ([Notice 1](#)). A copy of the notice must also be sent with the application to the local authority.

18. Planning Application Requirements & Local Level Requirements

There are two levels of requirements, national and local:

- **National** - Use the checklist to ensure that the forms have been correctly completed and that all relevant information is submitted.
- **Local** - The local planning authority will have produced a document (usually available from their website) which details any specific information that is required to accompany the application in addition to the national requirements.

Failure to complete the form correctly or to supply sufficiently detailed drawings or other relevant supporting information may result in your application being returned as invalid.

19. Declaration

Please sign and date your application.

20. Applicant Contact Details

Please provide contact information for the applicant.

21. Agent Contact Details

Please provide contact information for the agent.

22. Site Visit

Access to the site (i.e. where the works are proposed to take place) may be required by the case officer. Please provide contact details in the event that an appointment needs to be made. This will assist the Council in dealing with your application as quickly as possible.
