

Making an application online through Planning Applications Wales

Planning Applications Wales allows registered users to create and submit applications online to local authorities in Wales.

If you also plan to submit applications to local authorities in England, you will need to do so using the [Planning Portal](#). Your log in details will grant you access to an account on both services.

Online submission of applications helps to facilitate a quicker and more responsive planning application service.

You can register with Planning Applications Wales by visiting <https://1app.planningapplications.gov.wales/app>. When doing so you agree to our [terms and conditions of use](#).

The service is provided so that, in most cases, all parts of an application can be completed and submitted electronically, including payment.

Your rights and responsibilities

Please ensure that the information you submit is accurate and correct. Do not include personal information about third parties (including family members or sensitive information about an individual) unless you have told the individual concerned and they consent to it being supplied.

Online application best practice

- **Clear your browser cache** before logging into Planning Applications Wales – this will ensure that the system loads the information into your application correctly and does not display any outdated information.
- **Start a new session** by logging in:
<https://1app.planningapplications.gov.wales/app>.
- **Name your application using the site address** – this allows you to easily identify it later and helps the Local Planning Authority (LPA) identify your application when they receive it.
- **Complete the forms in sentence case** – normal upper and lower case writing with a capital letter at the start of each sentence – to aid the LPA in processing it.

- **Archive your application** once the LPA has received it. You can tell when the application has been received by the LPA as its status will change to 'Received by LPA'.

Electronic Communications

We encourage users to always include their email address on the application form so that LPAs can communicate electronically throughout the process.

Please note: Where an application is made online, the applicant shall be taken to have agreed:

- a) for the LPA to use such communications for the purposes of the application;
- b) that the applicant's address for those purposes is the address provided with the application; and
- c) that this agreement shall remain until the applicant gives the LPA written notice to stop using electronic communications.

Creating a new application

You can start a new application by logging in and choosing 'Start new application'.

Every application requires three basic details:

1. **Name** – A name for your application, **we suggest using the site address**.
2. **Location** – The location of your development (this also identifies the relevant local planning authority (LPA) for that site).
3. **Type** – The type of application you require (you may wish to contact your LPA to discuss this or [view details of the types of application offered](#)).

Once you have confirmed these basic details, your newly-created application will be saved as a 'Draft' in your 'Applications' section ready for you to start completing it or to return to work on it later.

The 'My applications' list can be accessed by logging in and viewing your applications on the 'My applications' screen.

Your online application

When you have created a new application or when you access an existing one from the 'Applications' list, you will be taken to an overview screen for that application. This screen lets you view and manage your application details.

This screen displays the name of the application, its reference number (prefixed PP), the type of consent being applied for, the Local Planning Authority (LPA) responsible for determining your application, and the status and date you last updated the application.

Online Application Process

Using the sections of the application overview you can complete the following tasks:

1. **Questions** – Complete the application questions (also lists all question sections and shows a progress bar)
2. **Upload plans and docs** – Attach supporting documentation
3. **Determine the fee** – Calculate fees for the application
4. **Submit application** –
 - Confirm that the application is complete and ready to submit
 - Pay the application fee
 - Sign off and submit the application to the relevant LPA.

These stages are detailed below.

1. Questions – Complete the application questions

Your application is made up of sets of questions that must all be completed correctly to allow the Local Planning Authority (LPA) to determine it.

The application question list and overview page will show how many of the question sections are complete.

You can navigate via the application questions list and answer the different sections and questions in any order. Sections will be marked as complete when all the questions in it have been answered correctly.

Most sections have help text to assist you in completing the questions. You can view the help text by clicking on the '?' icon beside the question section title.

After you have entered details, click the 'next' button. This will save the details entered so far and take you to the next section if the current section is complete, otherwise it will show you what you still need to complete.

You can also click 'Save and close' to leave a section. This will ensure the details you entered are saved for when you return later.

If any question sections remain incomplete, you will need to return to that section again by clicking its link and make sure all questions have been answered correctly.

If you think that the question being asked is not relevant to your application then you should enter '*not applicable*' within the relevant text field. However, we would advise you to contact your LPA to ensure they do not need this question answered to validate your application, or if you have queries about what is being asked.

You should also contact your LPA if you have any planning queries about your application. You can find their contact details using [the 'Local Authority search' function](#).

With the exception of the applicant(s) contact details (telephone numbers and email addresses), all the information you provide on the application form and in any supporting documents may be published on the LPA website.

2. Supporting Documents – Attach supporting documentation

Most applications require more information than can be provided by the application form alone.

Mandatory documents

The Local Planning Authority (LPA) will not be able to process your application unless **all** the mandatory supporting documentation has been provided.

Please note: unless **at least one** attachment is made within **each mandatory field** on the Supporting Documents section, the system will not allow you to submit your application.

There are two levels of mandatory documents, national and local:

- **National** – The application service will tell you what mandatory documentation you need to provide in support of your application.
- **Local** – The LPA will have produced a list (usually available from a link in the right-hand side panel on the supporting documents screen called 'Find out about local level document requirements') which details any specific documentation that is required to accompany the application in addition to the national requirements.

For any validation enquiries, please contact your LPA.

Optional documents

You can also attach any other relevant documentation which you think will help the LPA decide on the application.

Please note: You should not attempt to submit additional applications to a Local Planning Authority by supplying completed PDF application forms as supporting documents to another application.

Every application needs to be submitted separately, regardless of submission method.

Supporting document limitations

File types - Supported file types are:

- Adobe PDF – .pdf
- Images – .bmp, .gif, .jpg / .jpeg, .png, .tif
- CAD (HPGL) – .plt
- Microsoft Office – .doc / .docx, .xls / .xlsx
- Text – .rtf, .txt
- Video – .avi, .mov, .mp4 .mpg / .mpeg, .wmv
- GML – .gml

If you wish to submit supporting documentation by any other method, we recommend that you use the file types listed above wherever possible. If you wish to use any other file type, you should check with your Local Planning Authority (LPA) before submission as they may not be able to accept them.

File size – Each LPA can specify a file size limit, up to a maximum of 25MB per file. The limit will be displayed on screen. You will not be able to upload files larger than the limit they have set. If your document exceeds this limit, [please refer to our guidance on reducing file sizes](#).

File name – Supported characters within a file name are:

- The letters A to Z (upper and lower case),
- The numbers 0 to 9
- The characters:
 - " " (space)
 - "-" (dash)
 - "_" (underscore)
 - "(" (open bracket)
 - ")" (close bracket)
 - "." (full stop) – used to separate the file name and type

Permitted examples:

- Siteplan.pdf
- Elevations existing Drwg 1345-2.tif
- first-floor-plan_proposed_drwg 1346-1.plt
- SECTIONS AA BB (DRWG 234_1 REV 2).PDF
- Timber-frame-detail_entrance-hall (179098_2) (Heritage statement).doc

If the LPA cannot download or view an attached file you may be asked to provide it again in a file type they can use or supply a hard copy of the information.

Attaching plans and drawings

All plans and drawings **must** have a scale bar, key dimensions, the direction of North, original paper size and scale (e.g. 1:200 at A3) clearly marked on them.

While not compulsory, submitting plans and drawings on A3 will help the LPA process your application more efficiently. For example, consider placing fewer elevations on smaller page sizes, even if this means submitting more documents. We would also recommend only using colour where necessary as this can greatly increase file sizes.

Supporting documents best practice

There are several ways in which you can help the receiving LPA process your application more efficiently:

- Portable Document Format (PDF) is a trusted and reliable open file format used to convert virtually any document into an easily readable, industry standard format. Converting, or scanning original drawing files into PDF format reduces the original file size, while protecting file integrity and preserving source file information.
- Please ensure that the files are orientated correctly when uploaded. The file should be saved with the orientation it should be viewed in, landscape or portrait.
- Wherever possible, try to format your plans and elevations on A3 sheet size (or reduce the original to A3), this reduces print time and costs for the LPA where printed copies are required for consultation.
- Make sure you always clearly state the original sheet size and drawing scale, include a scale bar and key dimensions which will enable your drawing to be scaled accurately on-screen at any size.
- If you reduce your original drawing to A3 for submission, ensure you state the original sheet size and scale, as well as the reduced sheet size (e.g. Scale 1:500 at A2 original size, reduced to A3). Also ensure that annotations and other text are legible at the reduced size.
- When using compressed file formats (jpg/jpeg, pdf, avi, wmv) you should ensure that the document is of high enough quality and resolution, otherwise you may be asked to resubmit it.
- Do not use exe, zip or other archive formats as these are commonly identified by security software as high risk and may not be transferred to the LPA correctly.

Please note: The LPA cannot register an application until all supporting documentation has been received.

Therefore, we recommend submitting everything online wherever possible, rather than sending some information by post, to avoid any delays in the registration of your application.

With the exception of the applicant(s) contact details (telephone numbers and email addresses), all the information you provide on the application form and in any supporting documents may be published on the LPA website.

3. Fees – Calculate a fee for the application

The fee calculator has been provided so that, by selecting the relevant tick boxes, you can work out what fee is required for your application.

Please note that while every effort has been taken to ensure that the fee has been calculated correctly, the determination of whether the fee is correct is solely the responsibility of the relevant Local Planning Authority (LPA). Once you have submitted an application, the fee will be checked by the LPA and they will confirm whether the fee is correct.

If you are claiming an exemption in payment (e.g. if the proposed works are in connection with the provision of disability access to a building), or if you are claiming a reduction in payment (e.g. if it is a development by a parish council), then some LPAs may require a statement attached to your application giving the appropriate details (you will need to contact your authority before submission to confirm this).

4. Submit application – Complete the online application

Check

The system automatically checks that application is ready to submit. The green progress bar and blue tick icon will indicate when each section is complete. When all sections are complete and the application is ready to be submitted, the 'Declare and submit' button will become active (clickable).

Pay and Submit

Once it has passed the checks that everything has been completed, you can pay for and submit your application.

The payment options displayed are those offered by the LPA processing your application.

Please note: The LPA cannot register an application until the correct fee has been received. Therefore we recommend online or telephone payments rather than cheques to avoid any delays in the registration of your application.

Most Local Planning Authorities (LPAs) will accept the following three payment options:

1. **Online** – Secure online payment by credit or debit card
2. **Cheque** – The system will tell you who to make the cheque payable to and where to post it when you select this option and submit the application.

When submitting cheques, please ensure you write the application reference number and the site address on the back of the cheque and on any covering letter.

Post the cheque as soon as possible after submission as receipt of the fee is required for validation. This will help minimise any delays in the registration of your application.

3. **Telephone** – The system will provide the LPAs telephone payment number when you select this option and submit the application.

Some LPAs will also accept payment by BACS Transfer or via their own website's payment system. If you choose one of these options, the system will provide you with further information on making the payment once the application has been submitted.

Clicking on the 'Pay and Submit' button will submit the application form and supporting information to the LPA.

Online Payment

If you selected the 'Online' payment option, you will be redirected to the LPA's online payment engine to make the required payment.

Please do not use your browsers 'Back' button during submission or online payment as this may cause the process to fail.

The online payment systems are managed by the LPAs individually. Therefore if you have a problem with the processing of an online payment for an application, you will need to contact the LPA directly.

After the payment has been made, you will be returned to the Planning Applications Wales.

If you cancel the payment or are not returned to the Planning Applications Wales after making a payment, then your application may not have been submitted.

You can check your application's status in the 'Overview' screen or in the 'My Applications' list. Submitted applications will have the status of 'Submitted' or 'Received'.

If the application is still shown as 'Draft' then it has not been submitted and you should contact our support desk. We would also advise contacting your payment card issuer to confirm if the payment has been made prior to contacting us.

Once you have submitted your form

If you did not use the 'Online' payment option, then details on how to make the fee payment using your selected method will be displayed on the submission confirmation screen.

Please note: The LPA cannot register an application until the correct fee has been received.

You can view and access your submitted application for two years from the date of submission on the 'My Applications' screen, after that it will be archived.

Amendments

Once you have submitted your application on the system, there are actions you can take if you need to make changes. However, please note that these actions will depend on the submission status of the application.

If your application's status is 'Submitted to LPA', you can use the 'Retract' option as the LPA have not yet retrieved or downloaded the application. To do this you should select your application, and select 'Retract Application' within the overview tab. This removes the LPA's access to your application until you choose to resubmit it.

If your application's status is 'Received by LPA', this indicates that the LPA have already download your application and the 'Retract' option will not be available. In order to make an amendment to your submitted application, you will need to select 'Amend', which will create a new version of your application.

What happens next?

Once the Local Planning Authority (LPA) has received your application successfully you will receive a confirmation email. This email will include a unique reference number which should be quoted in all correspondence with the LPA. Your reference number is also available from the 'Applications' page and within your application overview.

Please note: The email confirmation does not constitute the formal acceptance of your electronic submission by your Local Planning Authority.

Once the LPA has received your application, supporting documents and payment, it will register and validate it within its normal workflow processes and timescales. If the LPA needs more information or has any queries it will contact you directly.

For further information on the progress of your online application please contact your local authority quoting your reference number.

Getting help

Specific questions, online payment and after submission

If you have a specific question regarding your application (for example a query over the fees, requirements for supporting documents or answers to specific questions) you should contact the relevant Local Planning Authority (LPA).

The service desk is unable to answer such questions as they fall under the jurisdiction of the LPA.

You should also contact the LPA directly if you have a problem with the processing of an online payment for an application as the online payment systems are managed by the LPAs individually.

Once the application has been submitted the authority will be able to assist with any queries.

Help with the online application system and technical support

For information about how to contact the service desk [visit the help page](#).
