4c. Eligibility - Pitched roof						
Would the proposed solar equipment protrude beyond the plane of the roof slope?						
☐ Yes ☐ No						
Note: This is measured from the perpendicular with the pitched roof slope						
f you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.						
If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.						
Would the highest part of the solar PV or solar equipment be higher than the highest part of the roof (excluding any chimney)?						
☐ Yes ☐ No						
If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.						
If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.						
4d. Eligibility - Flat roof						
Would be highest part of the proposed solar PV or solar equipment be more than 0.6 metres higher than the highest part of the roof (excluding any chimney)?						
☐ Yes ☐ No						
If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.						
 in a conservation area; in an area of outstanding natural beauty; in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside; in the Broads; in a National Park; in a World Heritage Site? 						
Yes No						
If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.						
4e. Eligibility - Wall						
Would the proposed solar PV or solar thermal equipment protrude more than 0.2 metres beyond the plane of the wall?						
Yes No						
Note: This is measured from the perpendicular with the external surface of the wall						
If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.						
If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.						
If the building is in a conservation area or World Heritage Site, would the solar PV or solar equipment be installed on a wall which fronts a highway?						
Yes No / The building is not in a conservation area or World Heritage Site						
If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.						
If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.
