4. Eligibility

Please note: Development will not be permitted if the 'prior approval date' is on or after 1 October 2020.

The 'prior approval date' is the date on which either:

- Prior approval is given or determined to not be required; or
- The 56-day period for determining the application, following the date it was received, expires.

The individual questions in this section will help determine if the prior approval process is relevant to your proposal. If it is not, we advise that you do not complete this application and seek advice from your Local Planning Authority on the best course of action.

Please note, there may be further eligibility criteria covered in subsequent questions.

Certain questions will require you to know:

- The current and previous uses of the site/building, and when these uses started or finished. This may require you to research the history of the site/building. Uses are codified into 'Use Classes' by legislation, [find out more information on Use Classes](#).
- The proposed dimensions and placement (e.g. height; floor space; distance from boundary) and/or the dimensions of any similar work previously carried out. This may require research into the planning/development history of the site/building.
- If the site/building is in any specific or 'designated' areas (e.g. a conservation area). This may require you to check records provided by the local authority or government agencies.

5. Agricultural Tenants

Where a site/building has (or has had) agricultural tenants, there are additional eligibility criteria to ensure that the tenants are/were not displaced in order for the proposals to be carried out.

You will need to know the details of any agricultural tenancy agreements that are in place (or were in place in the year prior to the proposed commencement of the development).

These details (and supporting evidence as required) can then be used to demonstrate that you are eligible to carry out the proposals under permitted development rights.

6. Description of proposed work, impacts and risks

Where legislation requires specific information to be provided, the relevant fields will need to be completed.

The information provided should include all the details necessary for the Local Authority to determine if the proposal complies with permitted development legislation, and if its prior approval will be required.

If sufficient information is not provided the Local Authority can either request it, or refuse the application.

If you intend to provide information (or related details, evidence, etc...) in separate supporting documents, please state that this is the case and include details of the document as well as a summary of the information it contains.

If you feel that certain questions are not relevant to your proposal, then you should state why. However, we advise that this is also discussed directly with the Local Authority as not providing sufficient information may lead to the application being refused.

Please note: 'habitable rooms' means any rooms used or intended to be used for sleeping or living which are not solely used for cooking purposes, but does not include bath or toilet facilities, service rooms, corridors, laundry rooms, hallways or utility rooms.

7. Checklist

There are two levels of requirements, national and local:

- **National** - Use the checklist to ensure that the forms have been correctly completed and that all relevant information is submitted.
- **Local** - The local planning authority will have produced a document (usually available from their website) which details any specific information that is required to accompany the application in addition to the national requirements.

Failure to complete the form correctly or to supply sufficiently detailed plans/drawings or other relevant supporting information may result in your application being refused.
